

Dear colleagues

This regards Resolution 4.4. Amendment C proposed by the BUPL, DM, GL, UED and DLF

Seconder is : Robert Fahlgren from Lärarförbundet in Sweden

All the Danish member organisations want to emphasize the importance of inclusive education for all as an important preventive measure.

This is supported by the ministers of education in their declaration from March, the Nordic Council of Ministers, the Council of Europe as well as the Global Counter Terrorism Forum.

But it is crucial that the international political level collaborate with us, the educators of the world. **And why?**: in order to ensure that combatting extremism in schools is integrated in the general approach to the task of schools and education in general.

We need to tackle and prevent extremism!

We have to strengthen the teaching of basic common values!

Fear of extremism give rise to a use of language that should have our full attention. We have to uphold the basic values and human rights that we stand for as educators.

In the class room we must be able to talk about and discuss extremism and radicalization with students without being judgemental in our use of language. As educators, we are not only role models, we are also the door to knowledge about the world, and we have a great responsibility to explain and teach students about critical thinking, citizenship, common values of liberty, democracy, tolerance and non-discrimination.

We ask you to vote for amendment c,
